 Note: Race and the racial composition of the neighborhood are not appraisal factors
 Neighborhood boundaries and characteristics:
Proximity to employment centers in downtown Springfield (10 minutes), grocery, schools, and public transportation supports steady rental demand and an
Employment base is stable, anchored by state government, healthcare, and higher education employers.
 Factors that affect the marketability of the properties in the neighborhood (proximity to employment and amenities, employment stability, appeal to market, etc.):
No competing listings within the immediate subject neighborhood were found to be materially superior or inferior; market conditions have been stable.
 The following available listings represent the most current, similar, and proximate competitive properties to the subject property in the subject neighborhood. This analysis is intended to evaluate the inventory currently on the market competing with the subject property in the subject neighborhood and recent price and marketing time trends affecting the subject property. (Listings outside the subject neighborhood are not considered applicable) The listing comparables can be the rental or sale comparables if they are currently for sale.

SMALL RESIDENTIAL INCOME PROPERTY APPRAISAL REPORT

At least three rental comparables should be reported and analyzed in this section. The rental comparables should represent the most current rental information on properties are similar and proximate to the subject property as possible. (This comparison is based on current rental data, therefore, the rental comparables typically are not the same comparables used in the sales comparison analysis.) The appraisal report should assure the reader that the units and properties selected as comparables are comparable to the subject property (both the units and the overall property) and accurately represent the rental market for the subject property (unless otherwise stated within the report).

ITEM	SUBJECT	COMPARABLE NO. 1	COMPARABLE NO. 2	COMPARABLE NO.3

Functional utility, basement, heating/cooling project amenities, etc.	Good functional utility; full b	Good functional utility; partial bas									

Analysis of rental data and support for estimated market rents for the individual subject units (including the adjustments used, the adequacy of comparables, rental concessions, etc.)
 Comparable rental is similar in size, age, and condition to the subject and supports the estimated market rents used in the income approach.

Subject's rent schedule reconciles the applicable indicated monthly market rents to the appropriate subject unit, and provides the estimated rents for the subject property. The appraiser must review characteristics of the comparable sales to determine whether estimated rents should reflect actual or market rents. For example, if actual rents were available on the sales comparables and used to derive the gross rent multiplier (GRM), actual rents for the subject should be used. If market rents were used to construct the comparables' rents and derive the GRM, market rents should be used. The total estimated rent must represent rent characteristic consistent with sales comparable data used to derive the GRM. The total gross estimated rent is not adjusted for vacancy.

LEASES			ACTUAL RENTS				ESTIMATED RENTS		
Unit	Lease Date		No. Units	Per Unit		Total Rents	Per Unit		Total Rents
	Begin	End		Unfurnished	Furnished		Unfurnished	Furnished	
				\$	\$	\$	\$	\$	\$
1	01/01/2025	12/31/2025	1	1,150		1,150	1,150	1,150	
						\$			\$ 0

Other monthly income (itemize) _____
 Vacancy: Actual last year 5 % Previous year 6 % Estimated % \$ Annually Total gross estimated rent \$ 27,600
 Utilities included in estimated rent ☐ Electric ☐ Water ☒ Sewer ☒ Gas ☐ Oil ☐ Trash Collection ☐ _____

Comments on the rent schedule, actual rents, estimated rents (especially regarding differences between actual and estimated rents), utilities, etc.: Estimated rents are supported by comparable rental data in the immediate neighborhood; vacancy and collection loss estimated at 5%, consistent with market.

COMPARABLE RENTAL DATA

SMALL RESIDENTIAL INCOME PROPERTY APPRAISAL REPORT

The undersigned has received three recent sales of properties most similar and proximate to the subject property and has described and analyzed these in this analysis. If there is a significant variation between the subject and comparable properties, the analysis includes a dollar adjustment reflecting the market reaction to those items or an explanation supported by the market data. If a significant item in the comparable property is superior to, or more favorable than, the subject property, a minus (-) adjustment is made, thus reducing the adjusted sales price of the comparable property. If a significant item in the comparable property is inferior to, or less favorable than, the subject property, a plus (+) adjustment is made, thus increasing sales price of the comparable property. [(1) Sales Price/Gross Monthly Rent]

INDICATED VALUE BY INCOME APPROACH \$ 305,000
INDICATED VALUE BY COST APPROACH \$ 295,500

This appraisal is made ☒ as is\ ☐ subject to the repairs, alterations, inspections, or conditions listed below ☐ subject to completion per plans and specifications

Comments and conditions of appraisal: This appraisal is made as-is, with no repairs or conditions required.

Greatest weight was given to the sales comparison approach, as it most directly

Final reconciliation: reflects the actions of typical investor-purchasers in this market. The income approach supports the concluded value; the cost approach is less reliable given the property's age.

The purpose of this appraisal is to estimate the market value of the real property that is the subject of this report, based on the above conditions and the certification, contingent and limiting conditions, and market value definition, that are stated in the attached Freddie Mac Form 439/Fannie Mae Form 1004B (Revised):

I (WE) ESTIMATE THE MARKET VALUE, AS DEFINED, OF THE REAL PROPERTY THAT IS THE SUBJECT OF THIS REPORT, AS OF 07/28/2026
(WHICH IS THE DATE OF INSPECTION AND THE EFFECTIVE DATE OF THIS REPORT) TO BE \$ 297,500
